Customer Reviews

This book is very "eh!" It does not contain anything I could not find on a simple internet search. However, what is most disappointing is that not all of these are day trips. It includes places like Bryce Canyon which is a 4 1/2 hour drive on a good day. That is 9 hours of driving for a hike. I love hiking, but would rather take a weekend than just a day trip, that leads to only one or two hikes. My favorite hike is the figure 8 at brice which takes 5-6 hrs. that would lead to a 15 hr. day not including driving breaks, eating, driving within the park, etc. This is just one example. If you are looking for a book of things to do that make you feel like you are traveling when you don't have time to travel look elsewhere. The only reason I gave this two stars, is it does mention some of the places I love in utah, but then again that does not help me learn anything new.

Day Trips from Salt Lake City is a wonderful guide for those less familiar with the area. Unlike the former review, it has a lot of hikes within a day of Salt Lake plus new and interesting ideas and events I never knew about. Yes it does go outside the normal day trips boundaries but the authors clearly state that some areas like Bryce and Zion are stretching the time limit but any travel book from Salt Lake wouldn't be complete without them. They added optional hotels and restaurants for those who want to stay an extra day, which I think really adds to options this book provides. I think if you are a well seasoned day tripper who has already explored the state like the last review, you will get less out of this book, but then again I don't think it was written with someone like that in mind. I have enjoyed several of the day trips from this book and look forward to exploring many more. I love how the book takes you around the compass that allow you to pick a direction a month and just head out for the weekend.
