I like this map. It is, people, a "map", not a book, not a big ol' laminated sheet of plastic. Yes, it will wear. BUT, it is a good map and here's why: It has the entire map on one side, and detailed descriptions on the other, which include a brief history of each lighthouse, the best views for it, and

directions on how to get there. What else do you need/can you expect in a map? We are getting ready to head to Maine for a month, and I am very excited about having all this lighthouse information in a relatively small package. Thanks!

Beautiful map on all the Lighthouses in Maine. It also gives you a brief history on them. Highly recommend this to anyone that wants to visit these beautiful Lighthouses in the beautiful state of Maine. Also very easy directions on getting to them.

This is a very nice map. The material it is made out of is much thicker than a typical fold up map.

All good. Thank you.

Nice map on durable surface! Good info include as well. Fun especially to add excitement during trip planning process.

If you hit the highway from Boston to Bar Harbor like we did, get this and make a few stops. This was the perfect map to get us to many lighthouses as part of our tour to Acadia National Park and no two are alike, there so many to choose from. We recommend Portland head and Cape Neddick for a must see!

I actually purchased this Maine Lighthouses Illustrated Map & Guide for a co-worker who has never visited Maine. I have worn out edge to edge 4 of these all by myself over the years. Out of all the maps I have purchased, this is the only one with step by step driving directions. We return to Maine every fall and revisit all our favorite lighthouses. This type of map is a must to have and one other states with lighthouses should have!

Bought this for our recent trip to Maine. It was priceless in helping us decide which lighthouses to try to visit. There really are so many that you have to pick just a few. It made finding the lighthouses a lot easier as well.
