What is your time worth? In these times, the economy is unpredictable; people need to do away with retirement concepts that a life plan if there is no proper management of income. It doesn't matter whether one is earning huge salaries or living a humble life. This book has been designed to teach steps to be taken in a luxurious lifestyle. Customer Reviews

Whats not to like? The book follows its own advice and gets to the point quickly by removing unnecessary bloat found on most self help books. This read was absolutely worth the small amount

of money I paid to read it on Kindle and worth more because it reinforced what I already thought was true but was afraid to accept. I recommend this book highly.

This summary shows the importance of paradigm. We need to evaluate our perspective. I will read the actual book to learn more. I look forward to implementing the steps to have a less stressful life!

Incredibly thorough with great particulars, not flippant or perhaps scratching the symptoms as perform most "Work Less" guides. Great memory joggers on a lot of things that we have to remember to be able to implement.

This kind of publication rocks !! decide on the item in place. Much important info in it.

Good and interesting book to read.

I truly enjoyed reading Tim's book his approach is brilliant and enjoyable. I would definitely recommend this book to anyone that wants to be liberated from the false hood we've been Betty Crockered to believe since our childhood. I gave this book a five star rating for its in depth and straight to the point approach.
