Consumer Transactions (University Casebook Series)

Synopsis

This new edition provides extensive and systematic coverage of federal and state law governing consumer transactions. The book introduces students to the case law applying the common law, statutes, and regulations to automobile sales and finance, home mortgages, predatory lending, and other transactions. To enhance the students mastery of statutory analysis, it makes extensive use of problems. The law has changed significantly since publication of the prior edition, including enactment of the Credit Card Accountability, Responsibility and Disclosure Act (Credit CARD Act) and the Dodd-Frank Act. The Sixth Edition of Consumer Transactions provides extensive coverage of this and other legislation, as well as recent developments in all the other areas of consumer law.

Customer Reviews

I bought this book for a law school course - Consumer Transactions. This was a very good book to learn the course and it helped me on the Massachusetts Bar Exam. There are lot of different rules and the examples in the book really help to clarify the pertinent law. Overall I would recommend this book for Consumer Transactions!
