Customer Reviews

Everything you need to know about soaping. They have tons of recipes and a starting point for those that wish to start a soap business. I am extremely pleased with this book.GREAT INVESTMENT!!!!

This is book is filled with great information for the beginner or one with more skills. It covered all the bases.

Got this book because my daughter and I are looking to have a summer project that we can do together to bond and have lots of fun at the same time. My daughter loves this book because it has many tips on how to get started and also there are a ton of soap recipes to choose from that we can try at home.

Good book. Great Book. Lots of valuable information for a new do it yourselfer. I love to learn new things and this is something that I really want to learn more about. I want to stop using chemicals and getting more into natural ingredients.

Exactly what I ordered!

My family made these for small Christmas stocking gifts this year. We all enjoyed them.

I enjoyed reading this one. Good ideas.

Ok at best. For some reason this book was free, after trying to read the poorly written instructions I can see why. It does have a lot of recipes in it and some of them are good, but given the quality of the writing I would not trust any of the lye quantities with verifying them.
