The Vaccine Court: The Dark Truth Of America's Vaccine Injury Compensation Program

Synopsis

A hard look at the National Vaccine Injury Compensation Program and the families desperately trying to navigate their way through it. The Vaccine Court looks at the mysterious and often unknown world of the National Vaccine Injury Compensation Program (NVICP), the only recourse for seeking compensation for those who have been injured by a vaccine. The NVICP, better known as the "Vaccine Court," however, is not without controversy. Established by Congress as a direct result of the passage of the National Childhood Vaccine Injury Act of 1986, the NVICP was supposed to offer a no-fault alternative to the traditional injury claims filed in state or federal courts and was to provide quick, efficient, and fair compensation for those who have been injured by vaccines. The reality, however, is that many cases take several years or longer to complete and require tremendous commitment from families already pushed to the brink of bankruptcy caring for the vaccine-injured family member, only to discover that the end result is manipulated by the government in defense of the US vaccine policy. Mr. Rohde looks into the inner workings of the US Federal Claims Court and the NVICP. He interviews families who have filed petitions and won compensation, families who have been denied compensation, and families still waiting for a decision. By highlighting the journeys of these families; their efforts to find attorneys willing to represent them, the filing of their petitions, and the subsequent mountain of paperwork, medical records, and other documents that span years; Mr. Rohde exposes the bitter truth behind the NVICP. Through his thoughtful interviews and fact-finding research, The Vaccine Court sheds light on how the NVICP has evolved into something far more treacherous than what Congress envisioned with the National Childhood Vaccine Injury Act in 1986.

Customer Reviews

Here you have it, in black and white: the unfairness, the corruption and system-wide bias, documented for the world to see. The VICP is in need of complete reform, or it needs to be abolished altogether. This book may well trigger the outcry in the public to start that much-needed process. Injustice cannot be addressed until the spotlight is pointed directly at the problem. And Mr. Rohde has done that brilliantly. He has done a great service in writing this book. The VICP can no longer hide in the dark, protected by silence. People can now know the truth, and that is a huge victory. This is a must-read book.

—Sylvia Pimentel, vice-president of the California chapter of the National Autism Association, and founder and moderator of Sac-Autism-Biomed

Wayne Rohde has lifted the veil over the murky tort reform experiment known as the Vaccine Court. In exposing the program's imbalanced liability protection for powerful vaccine manufacturers, he has performed a valuable public service.

—Robert J. Krakow, attorney and coauthor of Unanswered Questions from the Vaccine Injury Compensation Program: A Review of Compensated Cases of Vaccine-Induced Brain Injury

Few Americans know about the US 'Vaccine Court,' yet it may be their only recourse if they suffer an adverse vaccine reaction. In this groundbreaking book, Rohde details how the court works, or rather does not work, and the critical problems that bedevil it. Written with compassion and based on extensive research, Rohde's book is a must-read for all those concerned about the intended and unintended consequences of US vaccines.

—Mary Holland, research scholar, NYU School of Law

Wayne Rohde is the father of Nick Rohde, a vaccine-injured child who regressed into severe autism after receiving his first set of childhood vaccinations. He lives in Woodbury, Minnesota.

Most parents have no idea what the Vaccine 'Court' is. Beyond the only place you can go for any kind of help if your child is damaged or killed by a vaccine it stands as a shameful broken promise to our children. Vaccine makers and Doctors were given immunity from prosecution for any vaccine related death/damage in 1986 (National Childhood Vaccine Injury Act), in exchange the government set up the only place families could go for help and support if their children were damaged. You still can't sue drug makers or doctors for their faulty products and conduct AND if you try to get help through the Vaccine Kangaroo Court they will make your life a living hell and 4 out of 5 are turned

away to deal with the heavy burden of vaccine induced trauma and the expense and time it takes to manage what was once your beautiful and healthy child. As hard as it is to get help from the court they have awarded damages nearing 3 billion dollars since 1998. According to the above named legislation and the Supreme Court: 'Vaccines are unavoidably unsafe.' Your doctor says they are 'safe and effective'... only for the drug companies and the doctors. Parents do your own research - it is all on you to keep your children safe.

This book is packed with great information on the history of the vaccine compensation program and how exactly it works. I learned startling facts. Highly recommend!

I got this book 2 years ago and devoured it in a couple days. It's so packed full of history, references and data that it has become one of my staples on my desk for research and reference in answering questions. It's a must read and tops my list for recommended reading for all classes I teach.

Rohde's book exposes a light on the truth of as well as the red-tape involved in a broken government system which shields pharmaceutical companies from liability from their products (vaccines, which according to the SCUS are "unavoidably unsafe.") This is a must-read for any family affected by vaccine injury and those who want to understand why this system is in serious need of reform. Buy a copy to give to your doctors and legislators! It's time to repeal the National Childhood Vaccine Injury Act and hold vaccine manufacturers liable for serious vaccine injuries and deaths.

The autism community owes a great debt to Wayne Rohde for his brisk, easy-to-read book "The Vaccine Court: The Dark Truth of America's Vaccine Injury Compensation Program." For many of us, the passage of the National Childhood Vaccine Injury Act of 1986 which established the National Vaccine Injury Compensation Program (NVICP), otherwise known as the "Vaccine Court" has been an unmitigated disaster for the health of America's children. It is since the passage of this act that the rate of autism, allergies, and other auto-immune disorders has skyrocketed among our youngest and most vulnerable citizens. Rohde does an admirable job of leading the reader through an easy to understand explanation of how this program which was supposed to give a quick resolution to those victims of vaccine injury morphed into a monster which benefits only the pharmaceutical companies. This is a book which should be handed to every member of Congress as parents seek to explain why the Vaccine Court has become the number one obstacle to the health of our young

people. Rohde does a wonderful job of handling the injustices of the Omnibus Autism Proceedings and the irregularities in the cases of Michelle Cedillo, Yates Hazlehurst, and Colton Snyder. The author simply presents the information and asks the reader to draw his or her own conclusions.

This book is a must read if you EVER think about putting a vaccine into your body. The government has been bullying vaccine injured families for too long. Our vaccine injured children should be held up as heroes not discarded and hidden. This book will shock you and certainly raises the question of why there are so many new vaccines and where is this money really going. And let's not forget to mention that our children are SICK! As Autism rates sky rocket we cannot afford to turn our backs on what is happening to our children and the horrible way they are being treated by our government. Thank you Wayne for your dedication to telling a truth that must be told. Please read this book, share it with your friends and be part of the movement to getting our children back to healthy.

I didn't even know that there WAS a vaccine court, because our government is keeping that quite the secret, along with how many people have actually been injured by vaccines. Thank you, Wayne Rohde, for letting us know what's really going on.

Before considering vaccinations for your children, parents need to know that a non-governmental, kangaroo court of "deciders" determine if you can prove to them that your child's paralysis immediately after vaccination was actually caused by the vaccination. "Cause, the Effect" is not proof that the vaccination caused the paralysis that has been neglected by the medical community and caused great emotional distress, financial hardship, and permanent disablement and loss of the child's quality of life. No, these vultures want absolute test-tube proof by the parents, before financial assistance is given. Even then, you must sign to not advertise to anyone that vaccination caused a life-altering trauma to your family. This is a very important book to all parents considering whether to vaccinate their children. There are certainly better options.
