Noah's Ark, Noah's Flood: Lots Of Water, Lots Of Mud (DJ And Tracker John)

Synopsis

The third book in the "DJ and Tracker John" series, this colorful retelling of the Noah's Ark myth relies upon the author's knowledge of geology to give readers a peek into the deluge that altered history and changed the face of the Earth.

Grade Level: 1 and up

Customer Reviews

This book is an elementary level retelling of Noah's Ark with information as to how it could have been. The premise is that a scientist from the Institute for Creation Research ("Tracker John") and his friend "DJ the dinosaur" take Tim on a tour of a creation museum. Tracker John, with a smattering of science, Bible verses and apologetics, answers all of Tim's questions about how the ark story is real. And hey, the Bible doesn't tell us that dinosaurs weren't on the ark, does it?

I wish I hadn't ordered the package this book came with. There were not dinosaurs on Noah's Ark.
