Customer Reviews

I am not really sure what to say about this book. It is a lot of things. It is fascinating, eye opening, erotic, and educational. It is enlightening and inspiring. It is probably the most open and honest book about sexuality I have read, and as I guy, I feel like it is giving me peek into a world that I had no idea was so richly detailed, varied, and imaginative. It has definitely opened my eyes and my mind, and it is a wonderful book.

I don't really feel like I need Nancy Friday to interpret other peoples' sexual fantasies for me, so I found her commentary superfluous. The fantasies were often interesting, though.

I enjoyed this book a great deal 30 years ago. I hope to turn someone else on to it.

Dear god. This book is for unforgettable poke-my-mind's-eye out moments. Read the reviews before you buy it - and if you're not a man and straight, re-think the purchase!!! ugh!

Kinda boring nowadays. Or perhaps I do not get to the essence yet.

great book! Every man should read it (FYI: I am a man) and understand better what our partners, friends, spouses, family members think! The world is beautiful also because we want to understand and make the life of the others happy! Also when talking about sex. This has been a taboo for too long among women (while men always expressed their desires and fantasies). Really recommended to all!

I've read Nancy Friday's work before, but it's been some time. Perhaps what originally seemed pretty amazing has been affected by passage of time and now is almost mundane. And I hadn't realized how wordy she is.

I kept plowing through the book just to finish it. It opens your mind about what women actually think, feel and sometimes aspire in a lover (of any kind, form or species)...
