Customer Reviews

Deals in generalities, and has few pictures. Relies on the reader having some martial arts training.
Uses terms that a rank beginner to self defense may not comprehend.

I liked the ebook, it gives some good advice. Tactics are well enough explained. But it needs some
diagrams about the stances, grips, etc....

This writing is an absolute mess of thrown together notions that will get you killed if you try to use it
in a knife based altercation. It is basically an advocacy for Capoeira with a knife (which is a system
all its own) done as poorly and ineffectively as possible. Please, look elsewhere.

I chose this rating because of the effective ness and true writing of the book. Pick up a copy for
yourself.
