Customer Reviews

i did read the reviews, and should have know it was not what i wanted, its for a young new person, who just starting out. but i decided , to use it anyway, to make it easy to record what i do.

On the front cover photo of the Magic Spell Book looks very cool, however when I received my book the front cover was very dark and you could not see all the detail as on the photo, so that was a bummer because I really liked the photo. Other then that, this book is just for invoicing your rituals and spells etc .

AMAZING! I was expecting a lot less than what I got. I am so impressed and the price was ridiculously cheap! You could take the pages out and use them in your own BOS, or make this your recipe/spell/herbal book ~ or you could get more than one and have several different books. While the "learned" might not find this useful, a begginer would find it very helpful! Would definitely get another....might order a few for gifts too. You will not be sorry.BTW, I thought it only would have a few pages with information, but the whole book is full of blank spell pages (already formatted for you and very lovely - just add your own colors and artwork). So if you are looking for a book that is mostly a blank book you will be very disappointed.

Just as cool as you think it be. I only have one spell written in there right now. I'll be excited to look back when I'm older and see how far I've grown since now.

Great service and product!!

Pages are thinner than expected.Beside that detail, it's perfect for what I need it, fun designed

pages and cover, including index to classify pages and find whatever you looking for later.

I'm excited wonderful. I can't wait to start using them. Thank you

ok
