Customer Reviews

Lots of useful information here, but wishing I had gotten the print rather than Kindle edition. Kindle edition lacks an index, although of course you can use the search function, which brings up every time the searched word occurs, with no way to tell whether it's just an aside or three pages on the topic. There is a table of contents as well, which helps. Just easier to browse with a real book. Will save weight on our trip to have it on my iPad, and if I can properly bookmark by then, will be handy.

Big, beautiful and clear. We will plan our Scotland trip with this map and 2 others.

bought it for a gift, the recipient seems quite happy with it.

Only book you'll need.

I can't wait to use this guide to help me plan my trip!

as listed and on time

Helpful, well-organized.
