Customer Reviews

Aside from the bible, the Seven Habits is THE MOST INFLUENTIAL AND IMPACTFUL book I have ever read and applied to my life. A challenge for me has been to review or re-read the material to determine where I need to focus in the future because I know I will never master all the habits. This booklet is an excellent recap of the material-not a replacement-that I plan on incorporating in my annual review and goal setting process.Thank you for putting it together and making it affordable.-Mark

Trash. Definitely want my money back. I wrongly presumed the "snapshots" or "infograms" were in addition to the actual content of the book. I thought it would be cool to have visual aids. Not the case.It's little more than a summary. The entire publication reads like a Buzzfeed article. If you're not mature enough to read the full publication, do yourself a favor and get Seven Habits for Highly Effective Teens. It's far more useful than this glorified wall poster.

This version makes it so easy to read and comprehend because of the way it's laid out. Great for someone too lazy to do the hard work.

I love it...I bought the book years ago. I read it and that was it. As others I admired the title, yet could never connect with the message. The graphics are engaging and I'm connecting with the message.

This was very enlightening on so many levels. The seven habits are all natural processes that we can choose to incorporate based on our desires.

I read this book a very long time ago and now I bought it again in digital format, in order not to lose anything ever.I gained a lot of inspiration and I changed many things in my life after I read it.I certainly recommend it, not only as a practical guide to self, time (and many other things) management, but also as a way of thinking.

The full version is great. But this encapsulates everything you would hope to remember from that. A

great tool to have in your device to look over and sharpen your saw while you have a spare minute.

Amazing and life changing everyone should read
Reading the entire book at this point and I can say
do not miss it
