Wolf Surrender (Wolf Cove Book 4)

Synopsis

*The Wolf Cove series has absolutely NO paranormal elements in it. It's an erotic romance, heavy on the erotic.*Abbi Mitchell has battled her family and won. She finally has what she wants most—Henry Wolf, committed to her and within arm's reach most nights. But now she must face his family. In the wake of tragedy, Abbi and Henry travel to New York to sort out his father's affairs. What should be straightforward and quick turns out to be anything but, as a vindictive brother angles for more than his fair share, putting Henry and Abbi to the test. WOLF SURRENDER is the stunning conclusion to the sexy, addictive Wolf Cove Series, and should be read after WOLF BAIT, WOLF BITE, and WOLF PREY.

The wait was Worth it! I love picking up where it left off. To see Henry as infatuated with abbi as she is with him and watching him learn about love as he helps her become the independent and successful woman he recognizes in her while dealing with the heartache of a long distance romance, makes it hard to put down! The worst part? The story had to end! *Wolf Surrender* is a fantastic conclusion to the Wolf Cove Series.

I love this series. What a fantastic ending to Abbi and Henry's story. I've read the first three books in this series several times.....Out of all the male leads I have read over the past two years, Henry is by far my favorite. I love how he loves Abbi...and through the series you see that he really does love and care for her. Nina did a great job maturing Abbi in this book. In the first two (at least) you see Abbi as an inexperienced farm girl. Now, she has been out and around.....Henry has shown his love and devotion to her...and she has confidence in that. I love seeing characters change and grow in a series and I definitely saw that here. Also, the fact that this took place in Alaska (at least in the first book) was a bonus for me....I love that she took them back there to wrap up their story. I'm a little heart broken over not seeing any more of Henry Wolf, but so glad for the HEA. Thanks for the great series, Nina. Please keep writing. I'm a true follower. Also...I've read Ronan's story...is there more there to be told?

I've been hooked on this series since I found Wold Bait for free a few years ago. This series was hot and pulled you in to each character and relationship to where they felt real and I could see everything play out in front of me. Wolf Surrender, book four was a great full circle for Abbi and Henry. Questions are answered and information is given to where things feel complete. I got half way through the book and thought it lacked a little of the hotness the other three books had until I got to the end and was like dayyyymm... there it is. However, since I'm so invested in these two characters it made sense as to why they stayed to themselves and what that truly meant. Henry opened up more and Abbi became even more confident in herself. I really enjoyed this series but that ending left me a little confused. Is it done or will there be another book? It could be complete but I'm selfish and want more because I adore these two characters and who they are together!

I love that the drama was believable, I love that it wasn't a Dom/Sub relationship. Just 2 people falling in love and defying the odds to make it work.
