## **Customer Reviews**

Easy and enjoyable read, it was great to read as I read through the Gospels, chapter by chapter. I learned something new each day, and felt connected to many of the insightful things said. I recommend this to everyone embarking on a journey through the Gospels, be it your first time through them or your twentieth, if you have not yet read Wiresbe's Be Series, learning awaits you. Having the bundle was great as it was a cost savings and I enjoyed reading about the similarities and differences between the Gospels. I look forward to reading all of Wiresbe's Be Series as I read through the entire Bible.

Dr. Wiersbe is always a blessing. Used his commentary and the outlines in these books in preparing a Sunday school series on some of the supporting "Characters of Christmas." The characters included Zacharias and Elisabeth, and Simeon and Anna, as well as background on Herod the Great, the Scribes, Pharisees and Sadducees. I've always found Dr. Weirsbe's insights to be helpful and encouraging.

Warren Wiersbe has done a magnificent job of making the Gospels come alive and enable us to see the deep meanings for us as we live the Christian life. The background of what is written is brought right to the reader to help us truly understand Jesus' life and ministry.

But I love the contents! This book is much more interesting than I thought it would be; it easily held my attention, although it was rather frustrating having to go back and forth between it and the Bible so much. It would have been, in my opinion, much better if some of the shorter passages of Scripture had just been spelled out, rather than having to keep looking them up. I really

Dr. Wiersbe is one of the foremost researchers and commentary writer of his time. You will not find a better, more well written series.

What a great way to study God's Word! Warren Wiersbe is a great teacher!

Never had read any Warren Wiersbe books, although I'd been exposed to them for decades. These books blew me away by their succinct presentation of background information, textual validity, and application value. Absolutely Great!

Anything written by Warren Wiersbe is worth the time and money.
