Customer Reviews

This 1993 edition is not brand new, by any means, but it does give good descriptions of local parks and places to take a walk yourself, with or without friends or a dog.

I bought the Washington Country Walks years ago and have checked out (from a library) the Delmarva edition. This Baltimore Country Walks has the same thorough approach as the others. Great!

This book takes you to outdoor areas mostly within thirty minutes drive from downtown Baltimore. If you just need a breath of fresh air and a walk in the country to boost you up, this one is for you. This book is a great find for those Baltimorans who have lived here forever and never knew about these places. It is also great for all those newly transplanted to Baltimore. Mr. Fisher gives detailed descriptions of the areas and interesting historical tidbits. He knows his stuff. However, as he admits, the areas he describes are constantly changing. They are parks that are being renovated, adding new facilities, etc. One of our favorites is North Point State Park. If it weren't for this book, we would have never found it.
