Customer Reviews

Reconnect with your body and nature with simple breathing techniques and experiencing instead of complicating and intellectualizing foolishly like so many other psychobabble books out there. Deep healing- I highly recommend this read.

A good book that is worth taking the time to read. No Earth shattering wisdom is imparted but helps you have a better understanding of how to walk well on Mother Earth. It also makes you stop and think. It is an easy read but at the same time one that will have you stopping to think about what you read.
