Preparation > College & University > SAT & PSAT

## Customer Reviews

This book will serve as a very good supplement for anyone who is looking to improve his/her english writing skills, and especially for the students it will help a lot. It has varied essay topics from Education to Family values. I like the way each topic is started to quote an argument from the essay topic and then lists supporting ideas before the actual essay. This definitely teaches on how to start with any topic and how to give words to your thoughts in writing. Definitely a good aid for anyone who is learning the art of writing essays. I have prepared 2 good essays using the tips provided in this book and gained appreciation.

This book wasn't helpful at all.

This is a great resource for test-takers. It helps spark ideas when writing.

Another book in a great series. It shows how to outline essays and different essay types. It provides challenging topics to discuss and provides sample essays for each. You are instructed on how to effectively answer the questions asked. It provides thought provoking questions that relate to current world issues.
