Can I Say: Living Large, Cheating Death, And Drums, Drums, Drums

Synopsis

Travis Barker's soul-baring memoir chronicles the highlights and lowlights of the renowned drummer's art and his life, including the harrowing plane crash that nearly killed him and his traumatic road to recovery—a fascinating never-before-told-in-full story of personal reinvention grounded in musical salvation and fatherhood. After breaking out as the acclaimed drummer of the multiplatinum punk band Blink-182, everything changed for Travis Barker. But the dark side of rock stardom took its toll: his marriage, chronicled for an MTV reality show, fell apart. Constant touring concealed a serious drug addiction. A reckoning did not truly come until he was forced to face mortality: His life nearly ended in a horrifying plane crash, and then his close friend, collaborator, and fellow crash survivor DJ AM died of an overdose. In this blunt, driving memoir, Barker ruminates on rock stardom, fatherhood, death, loss, and redemption, sharing stories shaped by decades' worth of hard-earned insights. His pulsating memoir is as energetic as his acclaimed beats. It brings to a close the first chapters of a well-lived life, inspiring readers to follow the rhythms of their own hearts and find meaning in their lives.

“(A) riveting, brutally honest memoir.” (Billboard) “Written with ROLLING STONE contributor Gavin Edwards, *Can I Say* is a fascinating look into the life of a talented, hard-partying musician who has beaten the odds several times.” (Rolling Stone)

After he broke out as the acclaimed drummer of the multiplatinum punk band Blink-182, everything

changed for Travis Barker. But the dark side of rock stardom took its toll: his marriage, chronicled for an MTV reality show, fell apart. Constant touring concealed a serious drug addiction. A reckoning did not truly come until he was forced to face mortality: His life nearly ended in a horrifying plane crash, and then his close friend, collaborator, and fellow crash survivor DJ AM died of an overdose. In this blunt, driving memoir, Barker ruminates on rock stardom, fatherhood, death, loss, and redemption, sharing stories shaped by decades' worth of hard-earned insights. His pulsating memoir is as energetic as his acclaimed beats. It brings to a close the first chapters of a well-lived life, inspiring readers to follow the rhythms of their own hearts and find meaning in their lives.

This is a good read. Very interesting! His life with Shanna combined with the Hollywood Rockstar formula is an extremely interesting take on celebrity love and marriages. Obviously any blink fan will eat this up, but they will learn that Travis is a go-getter, a talented musician who has collaborated his way to the top. He doesn't take setbacks too seriously but loves his family with emotional depth. His plane crash shook him up, but rightfully so. It really put me in his shoes on how horrific it really was. This guy is a true go-getter and has worked for everything he has gotten.

It was enlightening in many aspects and so honest and real. I LOVED THAT! It was sad, but it was uplifting despite the unfortunate events. I read it to my child and was bleeping out the SoCal language, (smile). The story still read well, and we both learned. Travis is some kind of crazy genius, but his skill is pure passion for expression. I introduced my child to their music while reading through this book, and it helped to find in books what cannot be expressed through other forms of media alone. I explained the difference in culture and environment causes one to express themselves differently, kind of like an accent, yet environment plays a role for sure beyond language. It opened up lines of communication that we may not have had opportunity to discuss. WE LOVED THE BOOK! God Bless. Thanks for sharing your experiences and how love and wisdom strengthened you. I'd recommend this book to anyone. It's so much more than just another book about a musician, he is respected for good reason. He has a beautiful heart.

If you are a big Travis Barker fan: You know what happens after the first quarter of the book, or once he joins blink and maybe even a little before that happens too, you know the sequence of events, you know when major events are coming up, and you know the ending. However, this book does give you a very honest perspective from Travis, which is nice because he doesn't talk all that much

and when he does he may come off as short or stuck-up. I knew he had collaborated with Gavin Edwards, so I expected a professional writer read/feel/language, however you can tell Travis was all for writing and providing feedback for Gavin about what was in this book. I felt like I was reading this out of Travis' own notebook. At first I didn't like the flow, but once I realized that I was reading Travis' own words I couldn't fault it, he only knows how to be one person. Bottom-line you really get to find out who Travis Barker is, what he is about, and why he acts the way he does. It all makes scene, it all comes together, it all makes you respect him even more. If you are some what of a Travis Barker fan: ^^^Read the last two sentences above^^^

Was blown away by this book, one of the best in this genre and I have read most of them. Very well written, interesting and highly recommended. Man, what this dude went through would kill most men. New found respect for Travis and his talents. Don't miss this read, you will have trouble putting it down! Gonna order some of his clothes also !

I wasn't prepared to like this book so much. There so much covered in this book. There's also complimentary parts written by his bandmates and exwives. It's very informative. Some parts are glossed over but when you have so much stuff going on perhaps those things weren't really priorities in his mind at the time.

Great stories throughout the entire book, it was great getting to know a bit more about such a talented musicians life and everything he went through from the beginning to now, much props and respect for Travis. If you love music you won't be disappointed by this book!!

Excellent read. Not only do you get some insight into his life and what drives him, but also an unexpected mix of rock history. From what we all know as the super-quiet dude comes a screaming story of a personal life.

Love Travis Barker...this book was so hard to put down but having 4 kids I had to.lol..I read it in 3 days and every time I put it down I was excited to come back to it. Not many books do that to me. If you are a fan of Travis or blink 182 or just want an all around awesome book to read pick this one up..I love how friends and family got to talk about Travis. It was pretty neat reading about how he grew up and how the band started and the very personal and dark stuff that happened in his life. I can't say enough about how great this book was.
