Customer Reviews

My friend and I both used this book without taking a class or anything and we both passed :) Everyone at my high school is using it because these are the real questions from the exam so as long as you memorize them all you won't fail.

This is an excellent reference for student drivers who are looking for an efficient shortcut to ace that driver's test! It consists of 50 of the most common questions you'll find on the test, displayed simply and with the correct answers highlighted for effortless studying. Great source!

100% spot on! Anyone could pass the test with these

There is a mistake in the list of questions and answers. 47. U-turns in business districts are: incorrectly marked as correct: Legal whenever oncoming vehicles are not a hazard. Correct answer is: Legal only at intersections, unless a sign prohibits them. Also, amount of damage over which you have to report an accident to the DMV went from \$750 to \$1000 in 2017

I passed! The electronic test in Burbank (2016) was almost exactly like this. Several of the questions were identical. Great resource! Would recommend to any out of state friends.

I passed. I'd say about 50-60% were very similar or identical which I thought was pretty good!

The questions I got in the actual test were similar. There were some straight from this book. I would recommend going through the questions here and some CA DMV tests available on youtube. The youtube tests mostly covered all the questions here.

I'm sure a lot of these questions are the same state to state, but there are some specific to California. Worth the purchase of you are worried about passing the exam or have never received a license before.
