## Customer Reviews

Good book with a lot of varied ideas and info. My only complaint is that the book recycles licks in various lessons and the licks are frequently too similar. But there is plenty of material and you will get lots of new ideas on making something your own.

Eh, can't say I learned a whole lot.

Great book, very well done. All the examples are excellent for the aspiring bluesman to increase their knowledge and vocabulary of blues and the variable styles of. I use it for my students and

myself.

Great book for a reasonable price and quick delivery, I can recommend that product

Fantastic addition to my study materials. The only improvement could be in offering video instruction to the cd's.

I have the dvd, so I wanted the book also. Great book!

VERY well thought out exploration of blues guitar

Excellent
