Customer Reviews

This is an excellent book to use when someone wants to draw using Manga type characters.

Children and adults often want to know how to draw similar characters and this is a good book to use to get basic instruction.

I borrowed this on Kindle Unlimited and liked it so much that I purchased the digital version. If you're learning to draw manga or stick figures, especially digitally using apps such as procreate, I would recommend this book. The book doesn't specifically teach you Procreate, but it teaches you the basics of figure drawing that you can reproduce on your ipad. I like to save the digital files and oversketch them on my ipad pro, and that really helps me to learn the author's techniques quickly. I'm not interested in drawing manga per se, but I'm interested in sketching fashion designs. This book got me up and running as far as providing me with a background figure to use as a model for my fabric and clothing design sketches. I'd say, less than 4 hours to learn the basics of figures and shading.
