Good book for first timers! That is what I bought it for! But be aware it won't teach you all the details it takes to make a song sound like the original, that's where youtube comes in! This book and youtube together will make a great match for you, they did for me!

I dumped this book and gave it away after one day. You can do better shopping on line for James Taylor tunes. You have to be a pretty gifted guitarist--by and large to make this work--and I am nto gifted. I made a poor purchase.

Great, wonderful. The best ever. Always loved JT, now I can play his tunes

My wife' favorite songs good selection

I'm a guitar novice, so I'm still trying to achieve some of the chording represented in this book. This

would be a great choice for someone with a bit more experience. Now if I could just sound like JT!

JT is awesome but his music is not for beginners. I'm a beginner this is way hard. If you are playing at an advanced level this would be great.

This is a great book for those of us who play infrequently but still want to play the old favorites. A long time fan I grew up on James Taylor's music and was glad to add this to my library.

Easy for us newbies to read the tabs and make music that works at the campfire to sing with. nice to have James Taylor music to enjoy.
