Grade Level: Preschool and up

## **Customer Reviews**

Our son absolutely loves John Deere tractors. We ordered this book along with the "All About John Deere" video and a really cool toy John Deere tractor. We put them all together as a little themed Christmas gift. He liked it!

My 2 year old son loves the pictures of tractors and combines in this book! These are real, working pictures of tractors that have a lot of detail. After less than a month though, the first fold out page has been torn out. The pages fold out in different directions making it a bit confusing for him and then they get folded the wrong way making them weak and able to tear at the fold.

Our daughter loves books that are more than just pages that turn and this one about John Deere tractors is a hit. We have been seeing a lot more tractors lately since harvest time started and she loves them so naturally the pictures in the book make her smile.

Hard back I'm sure my granddaughter will chew on it and slobber over it. Her grandfather is a farmer and she will always be around these types of farm machinery.

Good book. Condition of book not as reviewed.

M 2 year old grandson loves tractors. He loves to lift the flaps on this book and tell what the pictures are.

Our son loves this book- tractors are one of his favorite things, and this one shows lots of them and how they work, with (to a toddler) super-cool flaps that he can open.

It was a gift for a little guy! Board books are always best for the little people who love to interact.
