Great songs! Will be a while before I can do them justice.

was written for pianist, guitarist may be disappointed. I found it to be a little simple at times but the changes are relatively accurate. Freddie would have approved but Brian may not have, oh well.

Love it! Complete versions of all the great songs, including Bohemian Rhapsody. Freddy Mercury was such a genius!.

It had every song I needed, it was easy to read, and I would recommend this to any aspiring musician!

Really god app. LOTs of Nice books. Tyr tjis out. Make a cup of cogfe and just chill out. Till all you know.

Good collection of songs for the money. 30 songs. Print is a little small and some of the actual printing is spotty but chords seem basically ok and music notations gives enough information to have fun playing the songs. I would recommend the book.

This book's arrangements give a good glimpse of the originals, but even beyond the difficulty of putting a band like Queen's songs on just a voice and piano, it contains some serious errors in rhythms, especially in "Killer Queen." Someone with a good grasp of the originals and musical ideas can change it to the version recorded by Queen, but it takes work. Don't expect this to be perfect right off the page.

Content is as expected. Book material is not. It is too thin and easily torn off, especially if you read it often as you practice.
