# Jupiter's Sword: Book Two Of The Earth Dawning Series

## Synopsis

We barely won the battle at Mercury's shipyards, but the war is just beginning. The Telestines, in control of Earth, now pursue us from planet to planet, moon to moon, leaving terrible destruction in their wake. And now, the unthinkable: a new alien weapon with the power to destroy a whole world. Thousands die on Jupiter's moon Io when a bomb detonates, sending apocalyptic storms of debris that threaten millions of people on Ganymede and Callisto. But that isn't the worst of it. The bomb was detonated by a human. A drone. And there are thousands of them scattered across the solar system, anonymous, undetectable, and waiting for orders from their Telestine masters. Our war becomes a race against time: find the bombs, find the drones, find our true enemy, all while under siege from within and without. Before we all perish.

## Customer Reviews

I really hope that things begin to go the way of humanity. The bleak picture of their present status has to change. It's hard to imagine a worse scenario but that is the intention isn't it? Need Pike to step up and create a miracle of psychological healing. Open your eyes up Laura Walker! And I hope

Dawn grows into the whole being I know she is. And Nhean can wield his people magic to manipulate the situation In a positive way. I am a fan and I will follow.

Had difficulty in following the story, I couldn't adjust to the twist and turns as the story progressed. I was finally able to put it together. Interesting book just difficult to follow. I will however continue to follow the series and hope I develop a understanding earlier than I did in this book.
