Customer Reviews

"National Geographic Kids National Parks Guide U.S.A. is a fantastic tour of parks and preserves across the United States, with striking full-color photography of natural scenes or wildlife on almost every page...
A choice pick for public and school library young adult nonfiction collections!"
-- Midwest Book Review.

NATIONAL GEOGRAPHIC KIDS inspires young adventurers to explore the world through award-winning magazines, books, website, apps, games, toys, television series and events and is the only kids brand with a world-class scientific organization at its core.

I thought this book would include a little blurb about all of the national parks sites arranged by

location. I was dissapointed. The book is small and leaves out a lot of parks. We hope to visit every national park and this was not as helpful as I hoped. I would not recommend it to a friend

I like this book as a resource for my children to look at before they travel. It is written for kids and has a lot of interesting information. I would recommend supplementing this again with the Jr. Ranger programs that the National Parks Provide for free. Most can be downloaded in advance or you can write or call the park to receive a copy in the mail.

Bought this along with the Junior Ranger Activity Book as preparation for a family vacation to some of the National Parks in the Southwest US. We are finding interesting information to enhance our trip. Lots of pictures and fun facts - this may become a repeat trip to other National Parks!

I bought this for my 11 year old, but the whole family enjoyed reading this.

The book has great pictures and my 10 year old son likes it. However, I was disappointed that the guide was not comprehensive and highlights some parks in detail and has small (barely) mentions of others. I will likely buy the adult version which includes more information.

Great for kids!

This was a gift for our granddaughters (8 & 11). They really liked it, as well as their parents! So, this was a hit gift. They used it to see what parks to go see.

more like a magazine. Not easy to read for little kids or story time
