"a wonderful picture of what the city has to offer. It is full of intriguing locations and is as much a delight to read as it is to use." Alexander McCall Smith --a

Explore the world through accurate and up-to-date mapping.

Yes, I love and hate this map. I have used it for four days in Edinburgh. It covers virtually all of the city that we spent time in. It is accurate. It gives useful information about bus stops (which becomes more helpful as you use the Lothian bus lines site for additional information, like route planning). That I loved. So what did I hate? Why not make it a laminated map? The corners of folds were all ripping out by day 2. By day 4 it was a mess. And I handled it carefully, I refold my maps, don't bend pages over and act like they are books. How I wished that I had had a map like one I bought in Milan last year which was laminated, durable and showed stops for buses, trams, underground. Edinburgh is easy to get around in thanks to a great bus system. It is a hassle to have a map that is

in tatters, won't fold back up and very simply makes using it a chore. I'd pay extra for such a map and so would anyone who actually uses maps in their travels for navigating metropolitan areas and mass transit -- a must in most European cities.

These are really nice maps with lots of visual information, but they're printed on the cheapest, weakest paper imaginable. All the cross-folds tear immediately, almost the first time you unfold the map. We're still in the planning stages of our trip, and already we're patching all the folds with scotch tape. We'll have only three days in Edinburgh, but will have to rely on TI maps 'cause I'm sure this thing will disintegrate the first day. Too bad, and we won't buy any more Collins maps.

So anxious to go to Edinburgh with my daughter. The map shows me all the places we want to go. Unfortunately it does tear at the folds. I'll just tape it to hold it together.

clear, easy-to-read, map. illustrated in an interesting and informative way, without being too busy. simple to use, nicely detailed, and makes everything easy to find at a glance. note: it is larger than maps i usually carry, but it's great for planning routes and trips. highly recommend.

It's really nice but I'm giving it 3 stars because it came with a hole in it.

Detailed and easy to find specific places.

This is an awesome map. I would have given it a 5 star rating if the street index on the back of the map was reversed (upside down). It would be so much easier to use as a reference if I could just fold that far side of the map instead of always flipping the entire map over.

Great map and easy to read
