Whether you believe them or not, you'll find yourself compulsively reading every one of these urban legends just to see what could possibly happen next. For, as outlandish as they are, they often ring true. From corpses coming alive a lasting impression and you'll find yourself telling them over and over again.

Enjoyable book that is a collection of urban legends. Most of the stories are pretty short which makes this a good book to pick up and put down as time allows, even if you only have 5 minutes you have enough time to get through a story most of the time. It's interesting to see the different urban legends and even see a couple I still thought were real. For the price this is an easy purchase if you have any interest in urban legends.

I liked the book; it was fun to review these. However, there were no urban legends that I hadn't

already read in Jan Harald Brunvald's various books. Gave only four stars because I'm sure there are others out there that hadn't already been published.

This book even though it is thick it is a waste of money and time, all the stories are maybe only a paragraph long no detail and no background how the urban myth started. What a waste

This book is great for anyone who likes urban legends or just wants to read some interesting stories. It has lots of pages separated into different sections so it's easier to go back and check out one you read before. Highly recommended!

Best collection of Urban Legends ever seen be put together. Some so ridiculous, can't be even remotely true, others reallymake you wonder.... great fun no matter what you think.

Fun reference. You still see some of these hoaxes on the web

Love this book i finished it twice before had to buy it

I got this book for a friend, cause my sister had purchased one and we couldn't stop reading it. Now my friend is hooked!!! Very entertaining book!
