Unlawful Passage: Age Of Magic - A Kurtherian Gambit Series (The Rise Of Magic Book 5)

Synopsis

Even heroes need a vacation. Unfortunately, Hannah and her friends chose the wrong beach. The Oracle needs help. She's dying, and only Ezekiel knows that the world will die along with her. Hannah and her team take up the call without hesitation. The only problem? It takes a freaking long time to cross the world. While putting their quest on hold for a much needed rest stop and resupply, Karl, Hadley and Laurel get captured by some angry locals, who accuse them of kidnapping their leader's son. Hannah and Parker head to the rescue, leaving Gregory alone to guard the airship on a remnant infested hilltop. What could possibly go wrong? *Unlawful Passage* explores the magical land of Irth beyond the Arcadian Valley. It's a fast and fun romp guaranteed to keep you laughing and pumping your fist all the way to the end.

Customer Reviews

I'm loving the Hanna stories! It was great getting back to following the cast of characters in a

another adventure. This installment is an adventure they have while on their way to saving the Oracle. While Unlawful Passage is a solid and complete novel, with a beginning, middle and end, it is really just a short chapter in the overall arc. A quick stopover on what is obviously a long journey (a summer vacation as the author end notes claim). So on the one hand, I was a little disappointed that it was a short-story, but on the other hand, it was a good story. Maybe said a different way: This installment isn't a movie, it's a TV series episode. While I do love Hanna, and did enjoy the episode, I do take time out to complain that it is still annoying that the greatest magician this side of the Age of Madness continue losing fist fights and running out of magic so quickly.

Hannah and her crew are supposed to be taking it easy on their journey to save the world, but on the way looks like they've got to stop and save another part of the world. Loved this adventure. Loved the couples finally...you know. The way it should go, or should have gone a long time ago! Can't wait for the destination story.

When you think you are going on a nice airship ride and decide to drop down to the ground for a bit and WHAM!! Rocks start flying, people with long arms and legs appear and you are accused of kidnapping the head mans son. Just a normal days for the crew of the Unlawful!!!

Aww, young love. Exciting, lots of adventure, new friends, so much is one intense story. Hannah still getting stronger. Gregory getting his back bone.

Hannah and her crew save another village from their own leader and add a new crew member, with new skill set to add to their group

One of the most original, yet familiar offshoots of the Kurtherian Universe. Hannah is the real deal...

Really enjoyed the characters in this episode of Rise of Magic.

This installment of Hannah's quest is a problem... for the other similar series in the Kurtherian Universe! Naturally, when I got the notification that it's out, I grabbed it. Not so naturally I did not stop until I had finished it. Well, that is not entirely true because I stopped to eat, go to a meeting, etc. but you get the idea. I think, maybe, this is the best book yet. Why? Well a couple of things:a) It sort of gives Hannah and her band a little break. Sort of.b) It connects some "relationships" that are long

over due.c) It leaves us (those of us with too active of an imagination) with LOTS of possibilities for where it's going. Do I see QBBA (Queen Bitch Bethany Ann) making an appearance?d) Hannah grows to yet another level of awesomeness. This is one of the best spin off series in the KU. I refuse to tell you the story because you need to buy it to get that and if you like this kind of book (I'm not supposed to, I didn't think but I'm hooked) then this is one of the best. Word of caution: If you haven't read books 1 - 4, go back to the beginning and start there. Better yet, read all of the Kurtherian books, in order. You will be glad you did.
