Customer Reviews

We discovered *Bizzy* at the library and ordered as many of these online. The 12-month-old loved them for a year. Unfortunately, loved these books to pieces. It was a matter of time before he would try to tear at the pieces. A few times I could repair them with glue and packing tape. Out of 5 of the books, I think 2 of them are still in ok condition. I would still get them because of how much the child loves to interact with the movement and they are sturdily made. It is just that if you are not staring at the child every second that they are with the book (or any book) it is likely they will try to tear at it.

Love these books

my daughter (nearly 2) is a huge fan of the *bizzy bear* series and we have a bunch of them. A

bedtime favorite. My only complaint is that the tabs often get stuck.

Nothing special of a book. My 1 and half year old was sliding out a page and it broke . Reviews seemed good but very unimpressed

My 1 year old son and 3 year old daughter LOVE all the Bizzy Bear books! Perfect for keeping toddlers engaged and creating a love for reading.

My daughter loves the Bizzy Bear series, she gets a kick out of each story and can follow along well.

Cute pictures and story, but our copy did not work properly. The slide-up feature on the rooster page does not work. We've never had this problem with a Bizzy Bear book before.

Son loves these books!
