Professor Miller completed his studies at the University of California at Berkeley and University of Chicago. Frank B. Cross is the Herbert D. Kelleher Centennial Professor of Business Law at The University of Texas at Austin Law School, where his research centers on judicial decision-making, the economics of law and litigation, and traditional policy and doctrinal issues in administrative law. He has written several books as well as pieces for the Yale Law Journal, Columbia Law Review, University of Chicago Law Review, New York University Law Review, Texas Law Review, Virginia Law Review, Cornell Law Review,

Georgetown Law Journal, Northwestern Law Review, and UCLA Law Review. A former president of the Academy of Legal Studies in Business, Professor Cross received his B.A. from the University of Kansas and J.D. from Harvard Law School.

I bought this book to study for the CLEP introductory business law exam after reading the customer reviews on . I agree with most everyone on here that this book is a good resource and will help you pass the CLEP exam. The only problem I saw with the book was the order of the chapters. Specifically it didn't really define Torts until chapter 19 and yet the term was used several times in chapters 4-6 comparing Contracts to Torts. An oversight by the authors (and editor) just assuming that every reader already knows what a Tort is in detail. Do yourself a favor and read the Torts chapter before you get to Contracts.[...] They also sell a practice exam that is useful to help you get used to the types of questions and the wording of the questions. I memorized all of the questions and answers to the practice exam. There were about 4 or 5 questions from the practice exam that were exactly the same on my CLEP exam. I recommend you read these chapters from the Barron's Book: 1-9, 13-16, 18-20, 22-24, & 26. In addition make sure you know the 4th, 5th, 6th, 8th, and 14th Amendments to the U.S. Constitution. Definitely know all of the stuff in the boxes labeled "You Should Remember", as well as the bold words throughout the chapter. Also answer all of the questions at the end of each chapter. I studied about 2-3 hours a day for 6 days straight and passed. It is a timed exam so be cognizant of the amount of time remaining during the exam. I almost ran out of time. Don't underestimate this CLEP exam, it was fairly difficult and there is a lot of information to digest but this book made the process easier. If you don't pass the exam you have to wait 6 months before you can take it again so be prepared!

I just wanted to let you know that this is how I received the Business Law book I recently got from you. The book's binder is ripped as if a dog had almost shredded it...in case I sent it back after the semester is done and a few maybe placed on my account due to this. The rating is of how I received the book and not an overall one.

I bought this book to prepare for the CLEP exam: Introduction to Business Law and the Dantes(DSST) exam: Business Law II. It is a great resource for both exams; if you can only buy 1 book to study for either test then this is the book!! I passed both exams with high scores, thanks to this book. I agree with other reviewers that you should get a copy of the exam outlines as that really helped me to focus in on what I really needed to know. If you are buying this book for the CLEP

exam, you should buy or download the Official Study Guide from the College Board. I had at least 5 questions on my exam that were taken right out of the book. Also, I used the questions in the guidebook to determine areas in the Barron's book that I needed to spend more time on. I highly recommend taking the Business Law II exam shortly after you take the CLEP exam since some of the information overlaps. For the Business Law II exam the majority of the questions are situation based, so you need to know how to apply the principles of the law. Lots of wordy questions which require you to watch and manage your time carefully. In total I spent about 15-20 hours preparing for the CLEP; I spent an additional 10 hours to take the Dantes exam.

I purchased this book for CLEP test, and it is very comprehensive. Also, it explains so many legal terms I had heard bandied about as I waded through life that includes contracts and terminology, and the legal system in general. VERY informative, easy to understand, and provides review questions at the end of each chapter. I'm keeping it as a reference. Honestly, this is a subject that should be taught in High School in order to prepare one for life, and this book is a wealth of information. Including shipping, it cost me a little over \$6. I anticipate doing well on the CLEP, which will save me a minimum of \$1,800 in tuition in books.

Small chapters kept me interested and allowed me to remember the information. The information is presented in an easy way with real world examples. Recommend if you're studying on your own and are looking for a non-intimidating introduction to business law.

What can you say about a book? My daughter passed the course, that is all that matters right! Great price!

I passed the Introductory Business Law CLEP using this book, which I had previously failed using Orr's Review for the CLEP. The Special Topics section included information needed to pass that was not even mentioned in Orr's book. Also included, are examples that provide a much clearer understanding of the topics and how to apply them. There is a lot of material to digest, so give yourself a good week to study from this book. Each chapter includes boxes titled YOU SHOULD REMEMBER, these are key, at a minimum you should be knowledgeable on these points. Good Luck.

I need this book for school but didn't want to spend a lot of money - I got just what I wanted!!
