Communication is everything in a relationship, especially when you are with someone for years and years in a marriage. Everyone needs a little reminder of what is important from time to time and that is what this book is all about. It covers communication in all aspects of married life, from everyday chat to talking about sex and feelings. It also has good advice on how to just be a better spouse. I like this book, it approaches marriage in a very healthy way and I can recommend it for sure.

Dialogue or communication is very important in all types of relationships especially in marriage to maintain the healthy bond of husband and wife. This book's teaching is not only for married couples but for people who are planning to go there or are afraid of committing. Don't wait until you think your relationship is on the brink of failing.
