Overlooked Survival Items Part III: Yet 20 More Underrated And Overlooked Items To Have In Your Stockpile For Survival And Disaster Preparedness

Synopsis

Do you think your survival kit is complete? What do you see when you look at your inventory sheets or open your pantry? Can we ever truly be prepared for everything? I am sure the answer to these three questions is a resounding no. That should be no surprise as you are now entering my third installment of Overlooked Survival Items. Our world has a lot of problems. There is no getting around that fact. Truth is, it also has a ton of answers, too. With a little planning and preparation, you can thwart these problems. Prepare for these disasters and survive in the face of insurmountable odds. All of this depends on the moves you make today in preparation for tomorrow. In this book, we are going to offer up 20 more items that you should add to your preps, starting today. You will find out some incredible things about substances like vinegar, Vitamin C and simple wax. You will find, nearly immeasurable importance in things like the 5 gallon bucket and bungee cords. We use many of these items every day and when it all falls apart that fact won't change. Sharpening tools, cleaning, charging, building and even generating power are all perks of the items you will find on this list. They may all seem rather mundane but, believe me, each one has tremendous potential.

Book Information

Customer Reviews

Could have gone into more detail on some of the instructions. Other than that, it was an OK book.
